ABSOLUTE TEAMWORK BETWEEN YOUR DOCTOR AND DRUGGIST WIN. When your doctor writes a prescription it means that his knowledge has prompted him to prescribe certain drugs in certain definite proportions. A druggist who follows his orders to the minutest detail is the one who helps him win. That's why we leave all the diagnosis and prescription to the doctor. Then we follow his orders—EXACTLY.

Road Celebration Set for Wednesday

Joint Committee on Arrangements Prepares Elaborate Program for Event to Signalize Completion of Ogden-Salt Lake Concrete Highway

The biggest joint celebration in the history of Weber, Salt Lake and Davis counties will be held at Lagoon, August 15, when the completion of the concrete highway between Salt Lake and Ogden will be duly observed. If the joint committee on arrangements is successful, the celebration will be the double parade, which will leave Ogden and Salt Lake respectively at 1 o'clock sharp, meeting at Farmington, where a stretched silken ribbon will mark the completed junction of the road.

Former Governor William Spry, under whom the work was started, and Governor Simon Bamberger, in whose administration it is being completed will serve the ribbon, officially opening the highway. It is the longest stretch of concrete highway between the Mississippi river and the Pacific coast.

MAYORS TO TAKE PART.
Mayor Frank Francis of Ogden and Mayor Neslin of Salt Lake have both been requested to take part in the celebration and to declare next Wednesday a half holiday in order that everyone in the three counties may be free to participate in the gala celebration. The Lagoon resort will be the center of the festivities, following the brief ceremony, when the Salt Lake

and Ogden motorists meet at the given point. A triumphal gateway has been erected in honor of the occasion, through which the paraders will pass into the grounds.

Addresses by members of the pioneer who came to Utah in 1848, together with addresses by Governor Bamberger, ex-Governor Spry, James Devine of Ogden and other speakers will be made at the Lagoon race track. Two survivors, who helped blaze the trail in the days of the Indian, will be featured on the program.

RACE ON CAYUSES.
It is expected that grandsons of some of the famous pony express riders will probably be pitted against one another in races on western cayuses, and more than a score of Utah Indians will take part in the sport program.

Automobile races and motorcycle races will also be featured, it is said. Fans of the events to be a handicap affair in which an ex team rider will travel one mile while a motor rider attempts to travel 25 miles. Other interesting events for the sport car are being completed. Officials of the Weber club of Ogden, city and county officials and hundreds of Ogdenites are expected to join in the celebration, which will officially open the Ogden-Salt Lake highway.

William C. Phillips Says Railroads Have Trouble Handling Fruit Shipments

William C. Phillips, general manager of the ice plant department of the Pacific Fruit Express company with headquarters at San Francisco departed from Ogden yesterday for points in the east on business for his concern.

While in Ogden Mr. Phillips stated that his company had almost doubled business of last season, and that the fruit crop in California and other coast points is so heavy this year that the railroads are having a difficult time to handle the shipments. In Ogden alone more than 40 cars of ice are used daily for refrigerating fruit cars en route east. For the past ten days more than

350 cars of fruit has been arriving from coast points en route east. Vast improvements are being planned by the Pacific Fruit Express company for several cities in their territory according to Mr. Phillips the details to be released to the public within the next few weeks.

B. P. R. to Get 30 More Motorcycles

Thirty motorcycles for use in road work in Utah, Idaho and Nevada by the U. S. bureau of public roads, have arrived in Ogden from the east and will be put into immediate use, according to B. J. Finch, district engineer.

The weekly meeting of the state road commission scheduled for Salt Lake next Tuesday will be attended by Mr. Finch. The Ogden canyon paving work, which was recently let to the Moran Paving company, will be discussed. It is said, "This work, it is stated, will start about September 6 and will be rushed to completion, the contract calling for the work to be completed within 200 working days."

SCOUTS ENJOY TRIP TO PARK

Tour of Yellowstone Without Accident; Camp in South Fork Planned

After spending two weeks in Yellowstone national park, Ogden Boy Scouts returned to Ogden last Friday elated over their trip, the experience and the wonder working of nature, as shown in the park's geysers and scenic formations. Entering the western entrance of the park on July 29 the boys, in company with adults, hiked more than 125 miles, visiting all of the principal places of interest, and camping over night at the end of each day's hike. Thirty-five miles of the distance was made on train.

NO ILLNESSES.
There was no illness to mar the trip, the party of 82 scouts and officials making the tour without accident. The giant two-ton truck which carried the equipment for the trip returned to Ogden yesterday encountering little difficulty due to bad road conditions in Idaho. The truck was in charge of David Steele. Nine scouts made the trip with the truck, together with S. Telford, driver, and Mr. and Mrs. Frank Baer, cooks.

TAKE MOVIES.
Photographer George Goshen took more than 4,000 feet of movie film of the trip, all of which will be shown at a local theatre in the near future. The plans for the outing of the scouts planned for South Fork will be worked out and it is probable that the outing will take place during the coming week and the following week. The scout board will meet Monday to make final plans for the outing, which will feature athletics, scout work, hiking and other phases of scouting. Ten army tents have been purchased for use at the summer camp.

WHAT IS LIFE WITHOUT A NEWSPAPER?

Were you ever hungry for news? Not special news of your own particular loved ones, your own soldier boy, your own home folks, but just NEWS, the world's news? It's an awful hunger.

Captains of industry sometimes take a vacation from their strenuous business life by going off on their private yachts or to their hunting lodges in the Canadian wilds and deliberately forgetting about the world, while leaving the world in ignorance of their whereabouts. That, naturally, is a very good kind of vacation for a captain of industry.

But the rest of us, simple, common mortals, are more dependent upon news than we often realize. Not necessarily the news of the newspaper, but at least the gossip of the neighborhood, and the rumors, interesting, tragic or scandalous, that reach us from other neighborhoods. The village gossip and the penny newspaper are important factors in human life in civilized countries. They keep alive our interest in other people, and to that extent keep us from concentrating our attention solely upon ourselves. Even a morbid interest in a divorce scandal half way across the continent is more wholesome mental stimulus than a morbid interest in ourselves alone. Self-consciousness soon becomes brooding, brooding leads to nerves, tempers, and often insanity.

One of the most acute miseries of the soldier's life is not fear for his personal safety, but the lack of news from home.

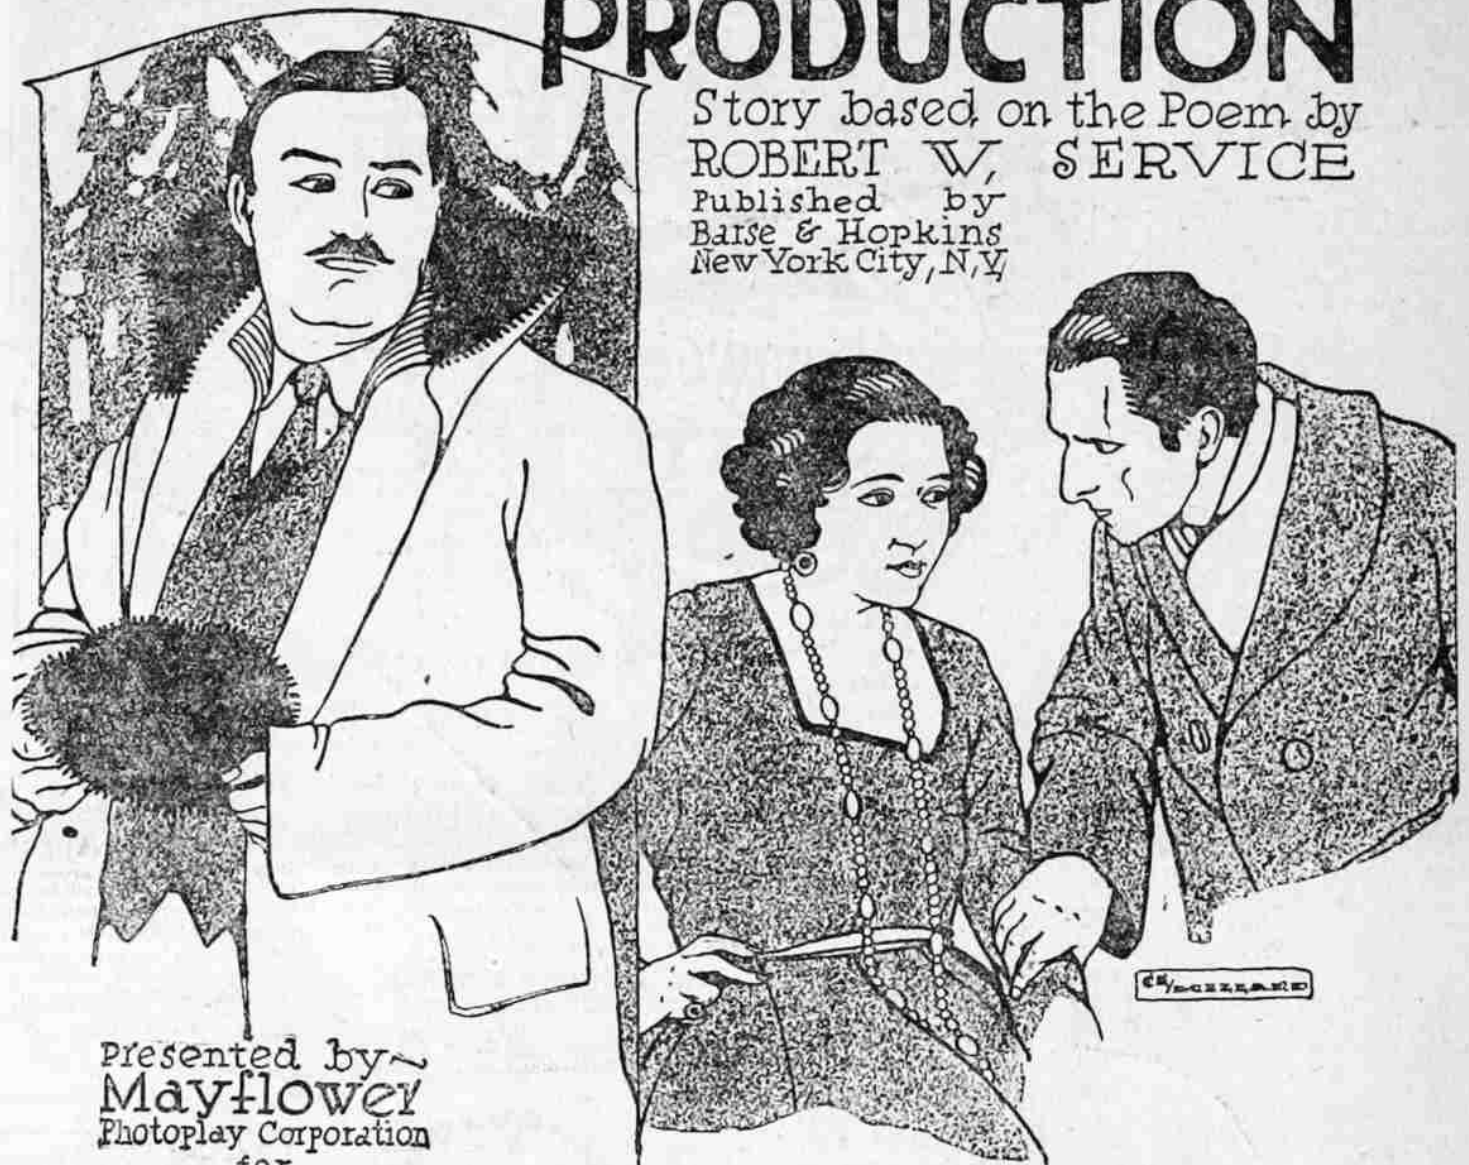

In far-off mission fields, in newly opened countries, explorers, pioneers, travelers all feel keenly the lack of news. They may be living under the most exciting and unusual conditions, they may be seeing beautiful scenery and having high adventures, but still, if they are normal human beings, they will constantly be asking themselves the question, "I wonder what they're doing at home now?"

It is said that the first copies of the first newspaper published in Dawson City in the Klondike were auctioned off for fabulous prices, sometimes even a bag of gold dust, so news-hungry were the miners and adventurers who had so long been without news of the outside world. Like our own soldiers in the trenches of Northern France, they thrilled at accounts of months-old news, and

R. R. Rates to Be Raised Next Week

The passenger and freight increases which are scheduled to take effect throughout the United States, August 26 and 27, will total from 20 to 25 per cent, according to local railroad officials. Freight consigned from any eastern firm on or before August 25 will be shipped through to its destination at the old rate, it is said. Several local merchants have ordered goods from eastern concerns and with this ruling in effect they have asked for action on their goods.

While it is understood that rates on all lines will be increased August 26 no information as to the amount of increase or as to the system which will be used have been received at local railroad headquarters. The railroads

throughout the country have asked for a rate of 3.5 cents per mile, many already having granted the increase.

The public utilities commission of Utah at its meeting last Thursday did not reach a decision on the matter, but will make the decision the coming week, it is said. The railroads of Utah at the hearing last week were represented by H. A. Scandrett, commerce and valuation council for the Union Pacific lines with headquarters at Omaha.

Scowcroft to Hold Outing on August 26

The annual outing of the John Scowcroft and Sons' company employees will be held at Lorin Park on the afternoon and evening of Thursday,
